

Independence: Goals and Limits

Elementary Parent Session

Led by world-renowned [Montessorian Elina Rautasalo](#), this workshop was held on March 7, 2019.

Focused on child development, this workshop helps to lay the foundation for children's independence and the development of self-motivation and self-regulation, key aspects of a democratic society.

During the workshop, we discussed:

- What is the goal of independence for children?
- How do Montessori classrooms help develop independence?
- How can you promote independence at home?
- How do you create limits and structure around children's independence?
- How does this work serve the child later in life
