

The International Montessori School of Prague

## Primary School Admissions For the 2023-2024 School Year

The Director of the school has determined that the following criteria will be used for Primary School admissions:

1. Priority will be given to children who are subject to mandatory primary school attendance, and further children who are at least four years of age by September 1st, 2023.
2. Further priority will be given to children whose siblings are already attending the IMSP Primary or Elementary .
3. In case of capacity remaining after all applicants fulfilling criteria 1 and 2 have been accepted, children will continue to be enrolled by order of age from the oldest to the youngest (due to the higher need for education and peer socialization).

Applications for Primary enrollment will be accepted from May 2nd to 17th, via databox, electronic mail with a verified digital signature, mail, the school's internal system or after prior arrangement, in person in the school office.

Enrollment will take place without the children's presence at school, in accordance with the order of the Ministry of Education, Youth and Sport 15657/2020-1, dated April 3rd, 2020. Results will be announced by publishing the list of accepted children, identified by allotted identification numbers, at school. The result will also be concurrently mailed to the child's parents or guardians via Czech Post.

**In Prague, March 10th, 2023**

Mgr.Ing. Kateřina Stanislavová, School Director
